1. Nature of operations and going concern

Blockmint Technologies Inc. (the "Company") is a publicly traded company whose shares are listed on the TSX-V under the trading symbol BKMT. BlockMint (Canada) Technologies Inc. ("BlockMint-Canada"), a wholly owned subsidiary of the Company, was incorporated on December 22, 2017 pursuant to the British Columbia Business Corporations Act. BlockMint-Canada and its subsidiary, BlockMint (USA) Technologies Inc. ("BlockMint-USA") are in the business of developing distributed systems and networks that enable a more decentralized deployment of blockchain based applications such as cryptocurrency mining. BlockMint-USA was incorporated under the laws of the State of Delaware on March 6, 2018.

The Company's registered office address is located at 29th Floor, 595 Burrard Street, Vancouver, British Columbia, V7X 1J5.

Going concern

The Company does not generate revenue from operations. The Company incurred a net loss for the six months ended June 30, 2021 of \$780,962 (six months ended June 30, 2020 - \$192,686) and had an accumulated deficit of \$7,183,162 at June 30, 2021 (December 31, 2020 - \$6,402,200). These conditions indicate a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. As at June 30, 2021, the Company had a working capital balance of \$2,894,622 (December 31, 2020 - \$2,543,528).

During the first quarter of 2020, there was a global outbreak of a novel coronavirus identified as "COVID-19". On March 2020, the World Health Organization declared a global pandemic. In order to combat the spread of COVID-19, governments worldwide have enacted emergency measures including travel bans, legally enforced or self-imposed quarantine periods, social distancing and business and organization closures. These measures have caused material disruptions to businesses, governments and other organizations resulting in an economic slowdown and increased volatility in national and global equity and commodity markets.

Central banks and governments, including Canadian federal and provincial governments, have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of any interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods. However, currently COVID-19 did not have a significant impact on the Company's operations and access to financial markets.

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. Accordingly they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those presented in these unaudited condensed consolidated interim financial statements.
