1. Nature of operations and going concern

BlockMint Technologies Inc. (the "Company") is a publicly traded company whose shares are listed on the TSX Venture Exchange (the "TSX-V") under the trading symbol BKMT. BlockMint (Canada) Technologies Inc. ("BlockMint-Canada"), a wholly owned subsidiary of the Company, was incorporated on December 22, 2017 pursuant to the British Columbia Business Corporations Act. BlockMint-Canada and its subsidiary, BlockMint (USA) Technologies Inc. ("BlockMint-USA"), continued in the business of developing distributed systems and networks that enable a more decentralized deployment of blockchain based applications such as cryptocurrency mining. BlockMint-USA was incorporated under the laws of the State of Delaware on March 6, 2018.

In September 2022, the Company discontinued its cryptocurrency mining operation in Washington State and launched a new website, <u>carbontokensmarket.com</u>, which aims to be a single source of information on the expanding carbon tokens market (the "Website"). The Company created the Website to provide a single source for price and market information on existing carbon tokens and aggregate news for the emerging and expanding universe of carbon tokens.

The Company's registered office address and principal place of business is located at Suite 2900, 733 Seymour Street, Vancouver, British Columbia, V6B 0S6.

Going concern

The Company incurred a net loss for the six months ended June 30, 2023 of \$6,289 (six months ended June 30, 2022 - net loss of \$345,709) and had an accumulated deficit of \$8,361,181 at June 30, 2023 (December 31, 2022 - \$8,372,392). These conditions indicate a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. As at June 30, 2023, the Company had working capital of \$1,699,103 (December 31, 2022 - \$1,705,392).

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. Accordingly they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those presented in these unaudited condensed consolidated interim financial statements.

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRS's issued and outstanding as of August 29, 2023, the date the Board of Directors approved the statements. Except as disclosed in note 2, the same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2022. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the period ending December 31, 2023 could result in restatement of these unaudited condensed consolidated interim financial statements.

2. Significant accounting policies

Changes in accounting policies

New accounting policy adopted

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2023. New accounting policies not discussed below are not applicable or do not have a material impact to the Company and have been excluded.

Accounting policies, changes in accounting estimates and errors ("IAS 8")

The amendments to IAS 8 is applied in selecting and applying accounting policies, accounting for changes in estimates and reflecting corrections of prior period errors. The standard requires compliance with any specific IFRS applying to a transaction, event or condition, and provides guidance on developing accounting policies for other items that result in relevant and reliable information. Changes in accounting policies and corrections of errors are generally retrospectively accounted for, whereas changes in accounting estimates are generally accounted for on a prospective basis. Adoption of the amendment did not have a material impact on the Company's unaudited condensed consolidated interim financial statements.

New standards not yet adopted and interpretations issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods commencing on or after January 1, 2024. Many are not applicable or do not have a material impact to the Company and have been excluded.

IFRS 16 - Leases ("IFRS 16")

IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. Lessor accounting however remains largely unchanged from IAS 17 and the distinction between operating and finance leases is retained. The amendment are effective for annual periods beginning on January 1, 2024. The Company will adopt these amendments as of their effective date, and is currently assessing the impacts on adoption.

3. Discontinued operations

In September 2022, the Company announced it had discontinued its cryptocurrency mining operation in Washington State.

In accordance with IFRS 5, the results of the discontinued operations have been consolidated into a single line item "gain (loss) from discontinued operations" on the consolidated statements of loss and comprehensive loss for the current and comparative periods so as to provide better comparative information for the continuing operations.

3. Discontinued operations (continued)

The items that make up the lines and the headings they would otherwise have been reported under are as follows:

4. Digital currency

Digital currency is measured at fair value using the quoted price on www.coinmarketcap.com. Management considers this fair value to be a Level 2 input under the IFRS 13 *Fair Value Measurement* fair value hierarchy as the price on this source represents an average of quoted prices on multiple digital currency exchanges. The Company is relying on the data available at www.coinmarketcap.com to be an accurate representation of the closing price for the digital currency. The Company's holdings of digital currencies consist of the following:

	As at June 30, 2023		As at December 31, 2022		
Bitcoin	\$ 107,860	\$	92,744		

4. Digital currency (continued)

The continuity of digital currencies was as follows:
